## Blinds and Shades

*With numerous fabric, design and style families, our curated line of blinds and shades offers nearly unlimited design combinations. Your custom creation can be personalized with decorative trimmings, valances or even various lift systems including hands-free, motorized models.*

**Newly curated Bali Designer Shop-At-Home Collection exclusively for Rockwood Shutters.**

- > On-trend fabrics from basic to luxury
- > Complex and integrated automation options
- > Enhanced room darkening solutions
- > Skylight and arched window solutions
- > Options for wide, expansive windows and sliders
- > Turn-key solution, from Design to Installation
- > Personalized, in-home service
- > Our designers bring their mobile showroom to you

## WOOD BLINDS

- > Highly customizable for light and privacy
- > Made from responsibly sourced wood
- > Real wood is attractive, lightweight and durable

## FAUX WOOD BLINDS

- > Wide variety of valance options to suit any home décor
- > Moisture-resistant for kitchens and baths
- > Realistic prints and crisp colors

## CELLULAR SHADES

- > Designed to insulate against heat and cold
- > Wide variety of cell sizes to accommodate any window
- > D-Cell construction prevents collapsing of the cell

## PLEATED SHADES

- > Add excitement and visual appeal to any room
- > Wide variety of solids and patterns to work with any décor
- > Neat-pleat technology prevents the shade from flattening

## NATURAL SHADES

- > Bring the colors and textures of nature into your home
- > Optional liners provide extra light/privacy customization
- > Add edge banding for enhanced style and stability

## LAYERED SHADES

- > Instant light control in a bold, striped design
- > Provides exceptional view-through and light control
- > Vanes align when open, and overlap when closed

## SOLAR SHADES

- > Variety of openness to control visibility and UV protection
- > Blocks UV rays while maintaining the view outdoors
- > Sleek, stylish solution for sunny windows

## ROLLER SHADES

- > Simple light control in a variety of fabrics
- > 4 different opacities to customize light and privacy
- > Highly customizable fabrics, colors, and choices

## Vertical Solutions

*Vertical window treatments are the ideal solution to cover wide, expansive windows, doors, or sliders. From budget-friendly vertical blinds, to energy-efficient VertiCells, our product line has something for every home. Let us guide you through choosing the perfect solution for your home!*

## VERTICAL BLINDS

- Cost effective solution for expansive openings
- PVC and fabric options
- Pair with Faux Wood or Real Wood Blinds for a whole-house solution
- Steel track system allows for precise vane spacing
- Easy to clean, requires minimal maintenance
- Interlocking "S" shaped vane provides additional light & privacy options

## PANEL TRACK

- A modern solution for sliding doors
- Wide variety of designs and colors
- Varying opacities and openness to achieve perfect light and view through

- Fabric stack can be positioned on the left or right
- Easy to clean, requires minimal maintenance
- Combine with Roller or Solar shades for whole-house solution

## VERTICAL CELLULARS

- > Energy-efficient solution for expansive openings
- > Cell stack is completely customizable and versatile
- > Allows stack of material to be positioned on the right, center or left
- > Wide variety of colors and fabrics
- > Combine with Cellular Shades for a whole-house solution
- > Moveable side rails with locking handles allow for ease of operation

## NATURAL DRAPES

- > Natural woven textures designed for a unique look
- > Combine with Natural Shades for a whole-house solution
- > Vertically-oriented material that functions and looks like drapery

- > A liner may be added for additional light control options
- > Fabric-wrapped, coordinating valance for a finished look
- > Edge banding is suggested to enhance the look of the shade so it will last for years to come
