- 18 framing options including proprietary Craftsman trim kit

- Many arch window solutions available
- French door and sliding door shutters
- Solid-core PVC (not hollow) poly shutters
- Upgrade to our Premiere Ultra shutter - a hybrid mix of solid-core poly and real wood

Made in the USA

Quality should never be compromised, and to this day, every product is custom made in Texas by manufacturing specialists. Rockwood products are proudly made in the USA.

Rockwood®

Innovative Technology

Through the years we've developed our own proprietary designs; from fully movable louvers on arched shutters to exclusive decorative framing, our creative range is as wide as your imagination.

Creative Styling

Shutters provide style and functionality, but also represent a solid investment in the value and appeal of your home. Handcrafted with care and precision, all Rockwood shutters are custom manufactured in the U.S. to your exact specifications.

Louver Sizes

Do you envision your shutters with classic styling or a sophisticated, streamlined look? Your choice of louver size, and selection of tilt control can take the appearance from traditional to modern.

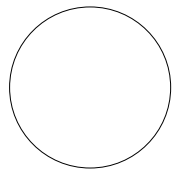

Arch Solutions

Arched windows bring superior beauty and style to a home's elevation. Shutters are the perfection solution for arched windows because we can custom match any design while retaining the architectural integrity true to its intended design.

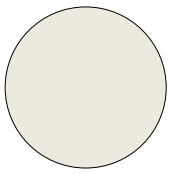

Door Solutions

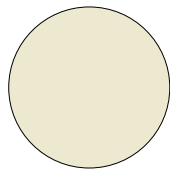

Sliding glass and French doors often present design challenges when considering window treatments. Beauty, functionality and quality are all equally important. Custom shutters are the perfect solution allowing privacy and light control while maintaining smooth function of the doors.
