

PRODUCT GUIDE

WELCOME TO ROCKWOOD

LET'S CREATE SOMETHING BEAUTIFUL TOGETHER

Rockwood Shutters has been helping homeowners transform their windows for almost 30 years. We offer custom shutters, blinds, shades, and exterior shutters designed to fit each home's style, budget, and functional needs. From expert design consultation to professional installation, we make the process simple from start to finish.

What sets our program apart? It's more than just purchasing window treatments—it's complete project management. From expert in-home design guidance and precise measuring to product selection, ordering, installation, and final adjustments, we manage every step of the process. You'll enjoy a single point of contact, personalized recommendations, and a professionally managed experience from consultation through completion.

OUR PRODUCTS

POLY

Poly is our entry-level shutter, constructed from high-quality solid-core PVC for lasting durability. Designed to perform beautifully in wet spaces like showers and kitchens, it's a practical and low-maintenance solution.

OPTIONS:

- Available in Extra White or Soft White
- 2.5", 3.5", or 4.5" louvers
- Choice of two framing options
- Classic or ClearLine tilt

LITELINE

LiteLine is our opening price-point option for solid wood, featuring petite profiles that create a clean, tailored look. Designed to work beautifully on sidelights, café shutters and above existing trim, it's a versatile and refined solution.

OPTIONS:

- Available in paint or stain
- 2.5", 3.5", or 4.5" louvers
- Choice of two framing options
- Classic tilt

PREMIERE ULTRA

Premiere Ultra is our hybrid shutter, combining solid wood rails and stiles with durable poly louvers. By leveraging the strength of both materials, it offers the rigidity of hardwood alongside the lasting durability of poly for a well-balanced, high-performance solution.

OPTIONS:

- All paint finishes including custom paint
- 2.5", 3.5", or 4.5" louvers
- Many framing options
- Classic or ClearLine tilt

PREMIERE HARDWOOD

Premiere hardwood is our top-of-the-line, solid-wood shutter offering exceptional craftsmanship with virtually no limitations on size or shape. Built for maximum design flexibility, it delivers a truly custom, high-end solution.

OPTIONS:

- Available in all paints and stains
- Artistic stain palette
- 2.5", 3.5", 4.5", and new 5.5" louvers
- Many framing options
- Classic or ClearLine tilt

CONFIGURATIONS

The width of your window will determine the ideal panel configuration. Our Poly and LiteLine shutters accommodate panel widths up to 30", making a two-panel design a great fit for many standard windows. If you prefer a wider, more open look, our Ultra and Premiere hardwood shutters can span up to 36", allowing for a single-panel design.

FOUR-PANEL T-POST APPLICATION

For wider windows that require three or more panels, options like a hinged T-post or bi-fold application provide added flexibility and function. Our designers will help guide you on the best configuration to ensure a balanced look and smooth operation.

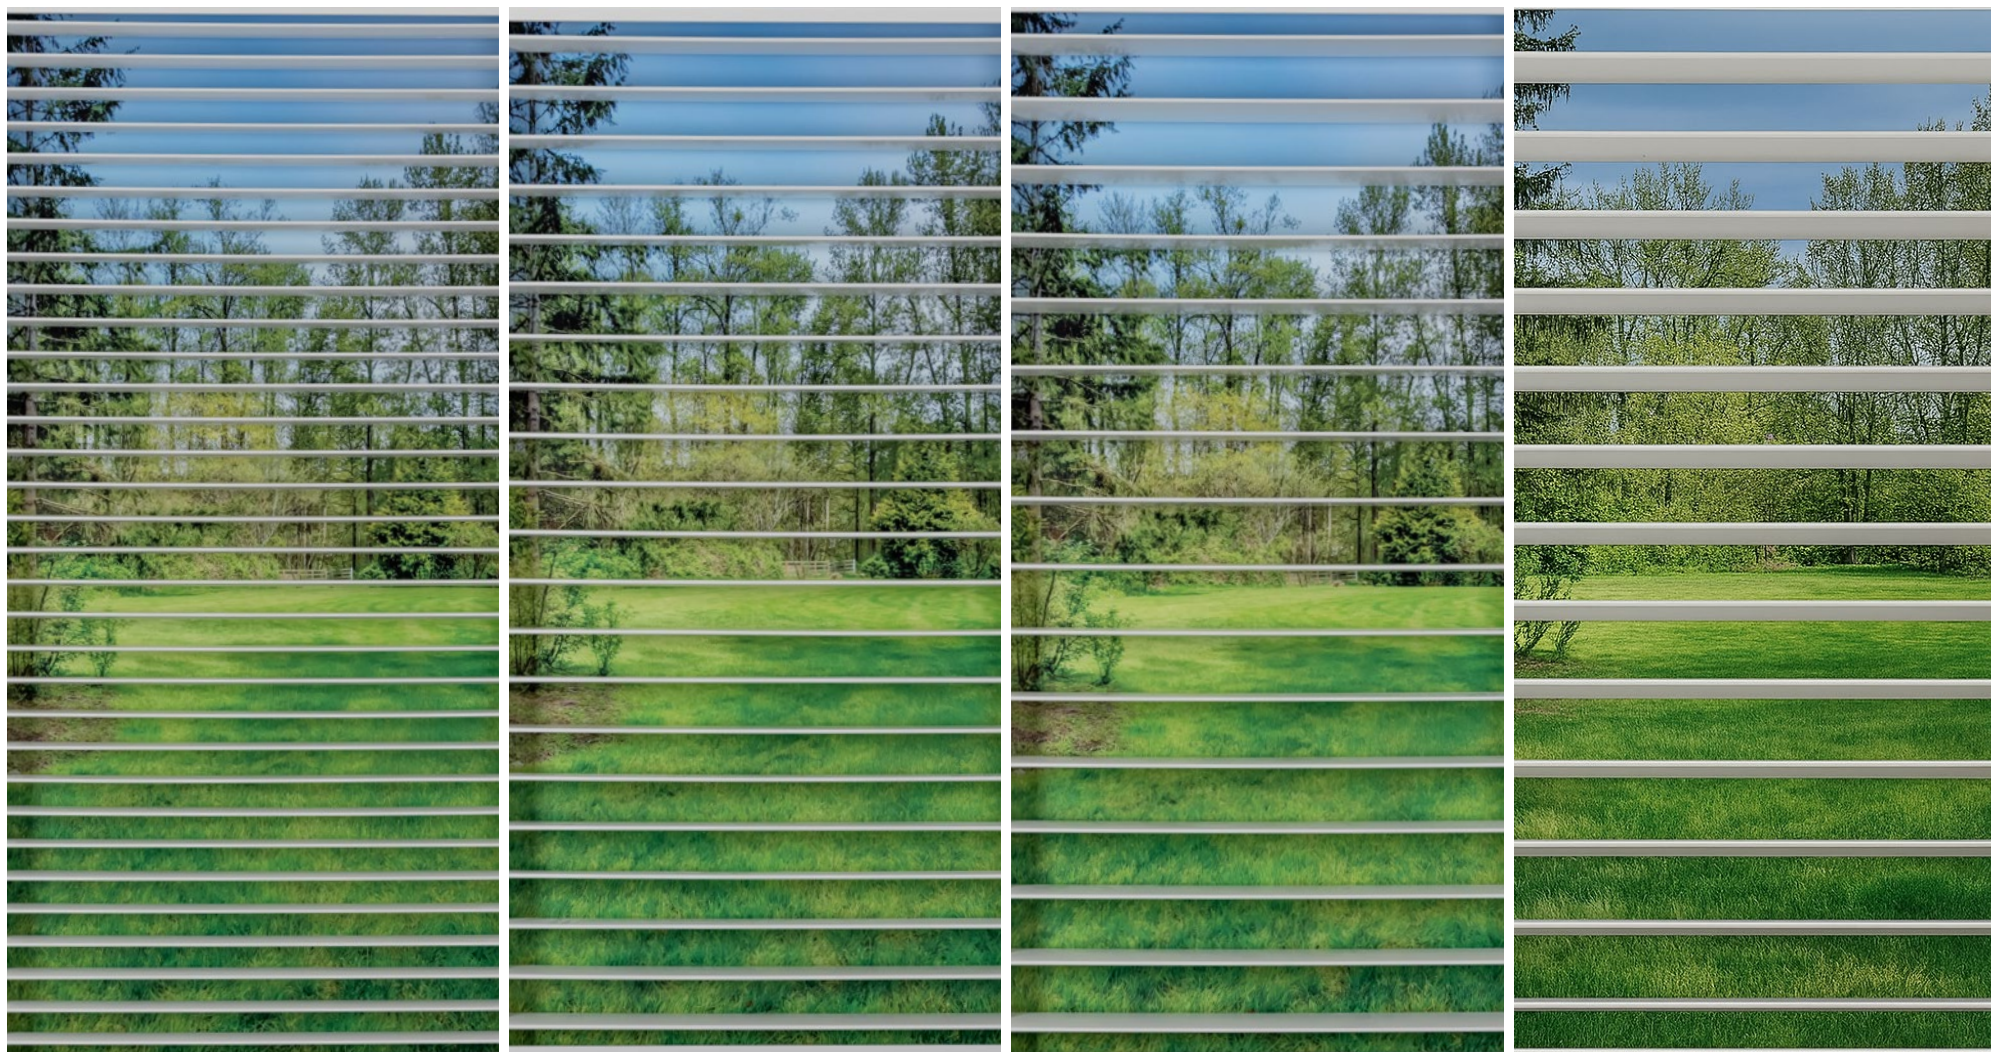

FOUR-PANEL BI-FOLD APPLICATION

TILT OPTIONS

Choose from a Classic tilt for a more traditional look, or ClearLine for a clean, updated, contemporary feel. A divider rail will allow you to operate top & bottom louvers independently for advanced privacy and light control.

Shown from left to right: 2.5", 3.5", 4.5", and 5.5" louvers.

PRIVACY & LIGHT CONTROL

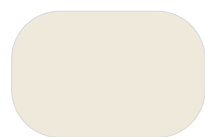

Control light and privacy your way with a range of flexible options. Choose from divider rails or a cut ClearLine design to operate top and bottom louvers independently, opt for a full panel with no divider rail for a unified look, or select a double-hung configuration for added versatility. Each option is designed to give you complete control, so your shutters work the way you live.

ARCH SOLUTIONS

Arched windows can present unique design challenges, where style, function, and quality all matter. At Rockwood Shutters, we embrace those details and specialize in creating thoughtful solutions for even the most distinctive spaces. Here, you'll find options designed to make your arched windows as practical as they are beautiful.

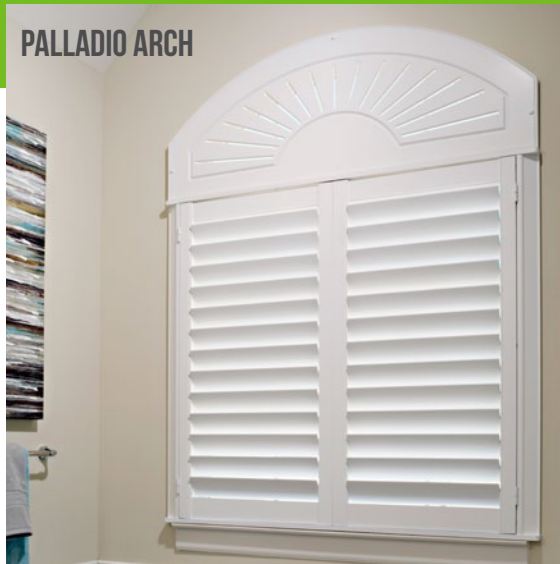

OPEN ARCH

PALLADIO ARCH

SUNBURST ARCH

GRAND ARCH

SPECIAL SHAPES

Specialty shaped windows are where custom shutters truly shine. Because each shutter is built to fit your exact window, there's virtually no limit to what we can create—from angles and arches to circles and more—delivering a tailored solution that fits beautifully and functions seamlessly.

SHUTTER DESIGN OPTIONS

Beyond standard window openings, shutters offer exceptional flexibility to suit your unique design vision. From custom configurations for bay, bow, and corner windows to innovative designs like our Big Modern and Little Modern designs, each shutter is crafted to complement your space while meeting your functional needs.

CAFE STYLE

BERMUDA SHUTTER

MIDSTILE SHUTTER

MIDSTILE SHUTTER

Meet the new MidStile Shutter. Crafted to perfection, these shutters redefine both style and practicality. The MidStile, strategically positioned in the center, ensures stability and allows for extra-wide panels.

FEATURES:

- Center mid-stile does not open or fold
- Provides stability for panels up to 48"
- Creates the appearance of two panels in one
- Perfect for corner windows

STUDIO METAL FRAME

Sometimes the best frame is the one you barely notice. The patent-pending Studio Metal Frame features an exceptionally slim aluminum profile and refined satin finishes that allow the shutter panels to take center stage. Its clean, minimalist lines complement any architectural style while delivering the strength, stability, and lasting durability of aluminum. Available in four standard satin finishes, or paint matched for painted shutters.

Standard colors: Gunmetal, Extra White, Chocolate, Black

BIG MODERN & LITTLE MODERN

If you love clean lines and contemporary design, our Big Modern and Little Modern styles offer two ways to achieve that look. Big Modern features wider rails and stiles for a bold, architectural presence, while Little Modern delivers the same minimalist aesthetic with slimmer proportions for a more subtle, refined appearance. Both eliminate decorative beading to create a clean, timeless design.

The wider rails and stiles of Big Modern are intentionally proportioned for today's oversized windows, creating a more balanced and visually substantial appearance.

BIG MODERN SHUTTER

LITTLE MODERN SHUTTER

SHOWN IN RAVEN/SADDLE

DUO FINISH SHUTTER

With Duo Finish, select complementary or contrasting finishes to create a stunning design statement in your home. Rails and stiles are finished to match the frame with a secondary color on louvers for a harmonious blend of style and innovation.

WOOD BLINDS

Wood blinds offer a warm, natural look that brings timeless style and everyday functionality to any space. Available in 2" and 2.5" options.

Benefits:

- Natural wood look
- Lightweight operation
- Tight light control
- Premium wood option

Lift Systems:

- Cordless

FAUX WOOD BLINDS

Faux wood blinds offer the look of real wood with added durability, making them a practical choice for high-humidity areas and everyday living. Available in 2" and 2.5" options.

Benefits:

- Durable wood-look finish
- Moisture-resistant material
- Easy-care operation
- Budget-friendly option

Lift Systems:

- Cordless

METAL MINI BLINDS

1" metal mini blinds offer a sleek, low-profile option that's both durable and easy to maintain, making them a simple solution for everyday light control and privacy. Available in .6 or .8 gauge thickness.

Benefits:

- Budget-friendly option
- Slim profile for shallow windows
- Wide color selection
- Great for commercial spaces

Lift Systems:

- Standard or Premium Cordless
- Wand Tilt

VERTICAL BLINDS

Vertical blinds are a versatile option for large windows and sliding doors, offering smooth operation and easy light control.

Benefits:

- Ideal for sliders and large windows
- Neat side-stack design
- Vinyl and fabric options

Lift Systems:

- Wand control
- Cord/Chain control

ROLLER SHADES

Roller shades provide a clean, streamlined look with simple functionality, making them an easy fit for any room.

Benefits:

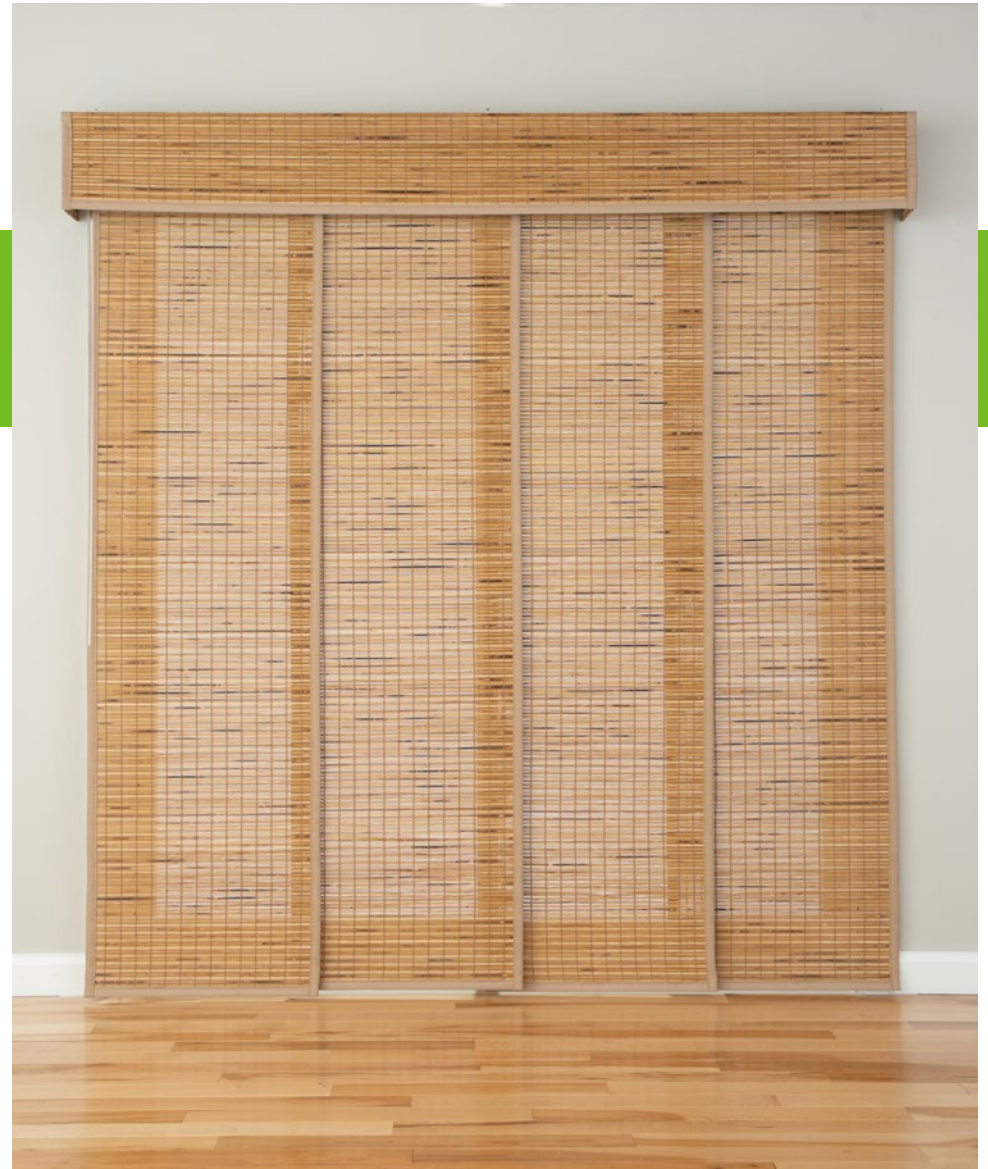

- Privacy & light control
- Wide fabric selection
- Clean/modern design
- Easy automation options

Lift Systems:

- Cordless
- Clutch control
- Motorized

PANEL TRACK

Panel track verticals offer a modern solution for wide openings, with large fabric panels that glide smoothly for effortless coverage.

Benefits:

- Ideal for large openings
- Clean, modern design
- Great for sliders and room dividers
- Coordinate with roller shade fabrics

Lift Systems:

- Wand operation
- Motorized remote operation

CELLULAR SHADES

Cellular shades are designed for energy efficiency, helping insulate your home while providing soft, filtered light.

Benefits:

- Energy-efficient insulation
- Soft, filtered light
- Enhanced privacy & light control
- Noise-reducing design
- Specialty shape options

Lift Systems:

- Cordless
- Motorized
- Clutch control
- Top-down/bottom-up

WOVEN/NATURAL SHADES

Woven, or natural, shades bring organic texture and warmth to a space, creating a relaxed, layered look.

Benefits:

- Natural woven texture
- Organic, layered look
- Renewable material options
- Optional privacy liners

Lift Systems:

- Cordless
- Motorized
- Clutch control

SHEER SHADES

Sheer shades beautifully filter light and help prevent the sun's rays from damaging floors and furniture. Fabric vanes offer privacy from the outside in.

Benefits:

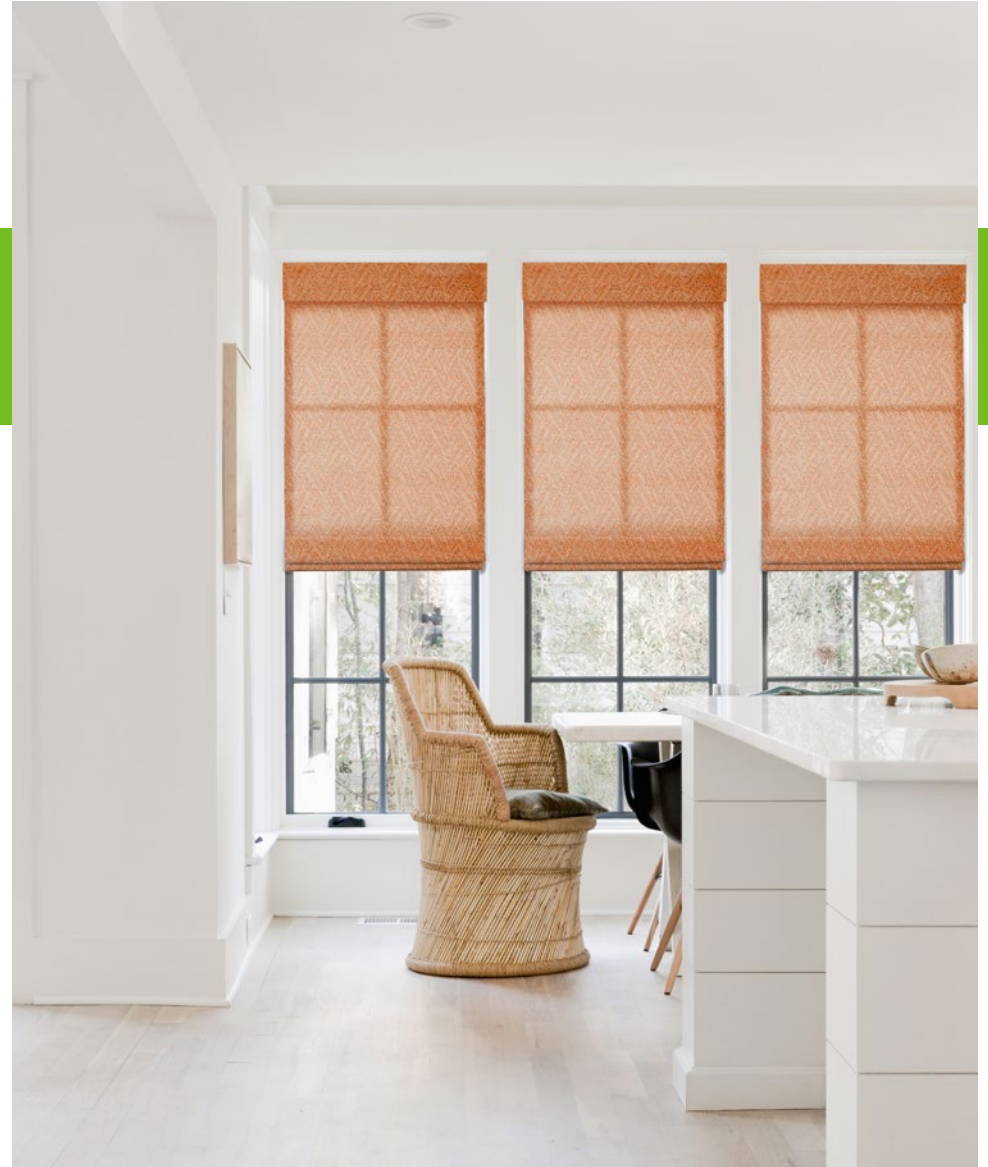

- Refined light control
- Soft, diffused light
- Daytime privacy
- Adjustable view-through

Lift Systems:

- Cordless
- Motorized
- Clutch control

ROMAN SHADES

Roman shades add a soft, tailored feel with fabric folds that create a polished, timeless look.

Benefits:

- Soft, tailored design
- Structured fabric folds
- Wide fabric selection
- Designer-favorite style

Lift Systems:

- Cordless
- Motorized
- Clutch control

BANDED SHADES

Banded shades feature alternating sheer and solid bands, allowing you to easily adjust light and privacy with a modern touch.

Benefits:

- Layered light control
- Modern, graphic design
- Easy day-to-night adjustment
- View-through privacy options

Lift Systems:

- Cordless
- Motorized
- Clutch control

AUTOMATION

Rockwood Automation systems offer state-of-the-art options to operate your window coverings. Wireless control via a remote, smartphone or tablet app provides simple operation for convenience and sophisticated style.

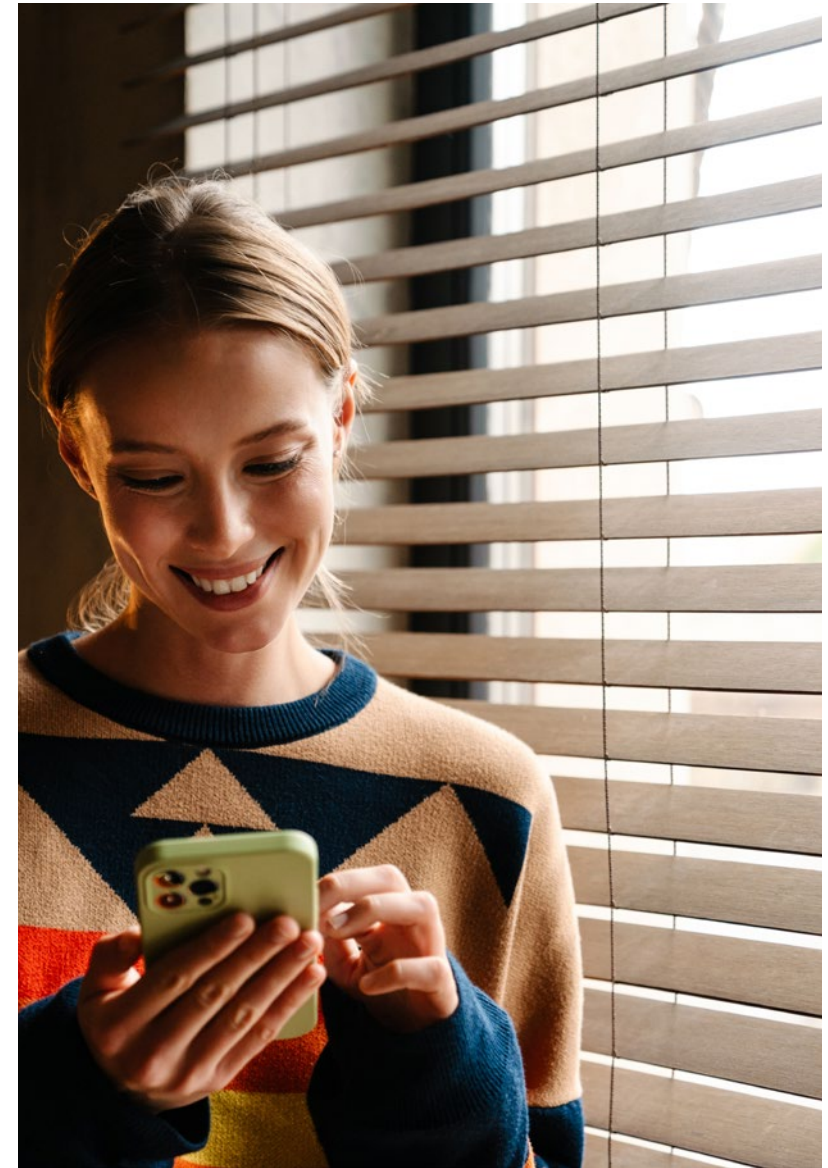

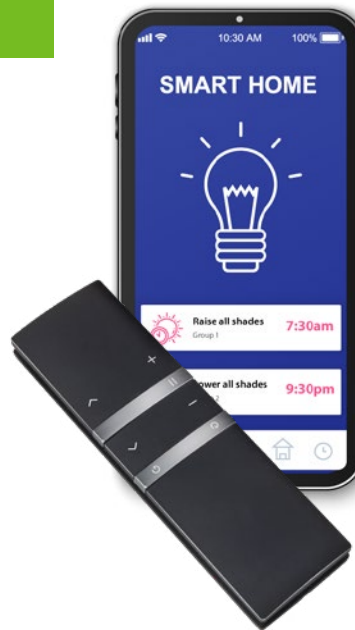

Exact—Lift, lower, tilt or traverse. Automation gives you exact control of your window coverings.

Effortless—Push the buttons on the remote to easily operate multiple shades.

Automated—Create customized scenes that can be scheduled throughout the day, individually or in groups.

Energy Efficient—Build sustainability and lower your energy bills by scheduling your shades to reposition throughout the day.

Convenient—Adjust shades via your smartphone or tablet while you're away so that you always have peace of mind that your home is secure.

A DAY WITH AUTOMATION

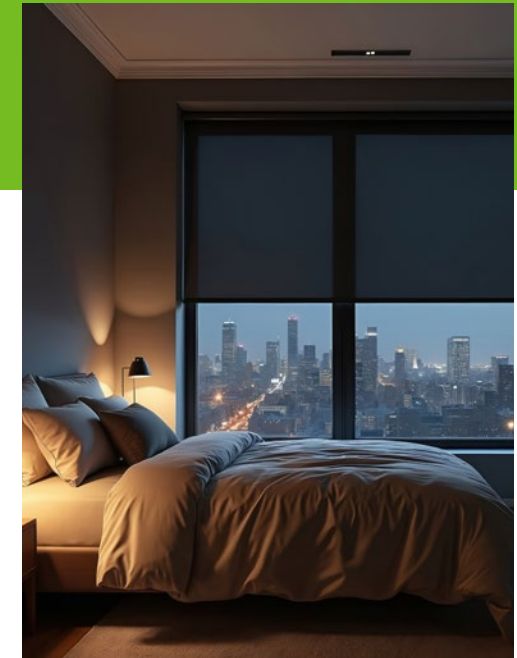

7:00AM - Morning: Schedule shades to open at your preferred wake-up time.

1:00PM - Afternoon: Shades adjust to protect furnishings from harsh mid-day sunlight.

Sunset: Based on your local sunset time, shades open fully to reveal your best view.

10:00PM - Bedtime: Shades lower automatically for privacy and a good night's sleep.

SYSTEMS & DESIGN OPTIONS

We offer a wide variety of advanced manual and motorized systems that enhance your everyday life, allowing your window coverings to look and function exactly how you need them to.

EXTERIOR SHUTTERS

Your home's exterior sets the tone. Rockwood exterior shutters are custom designed to complement your home's architecture, adding character, dimension, and lasting curb appeal. Whether your style is classic or contemporary, we'll help you create a look that feels right at home.

Every Rockwood exterior shutter project includes:

Custom Design Consultation

Expert guidance on style, size, color, and decorative hardware.

Precision Measuring

Custom measured for the ideal proportions and fit.

Quality Craftsmanship

Built for lasting beauty, durability, and low-maintenance performance.

Professional Installation

Installed with care and attention to detail by experienced professionals.*

*Installation not available in all areas.

From design to installation, Rockwood manages every step—making it simple to enhance your home's curb appeal with custom exterior shutters.

www.RockwoodShutters.com

TWO COLLECTIONS, ONE TAILORED LOOK

We offer two distinct exterior shutter collections, each designed to complement different architectural styles and personal preferences. Choose the clean, understated simplicity of the Savannah Collection or the more detailed, statement-making character of the Charleston Collection. Both are fully customizable and built with durable, low-maintenance materials that deliver lasting beauty.

Note: Our exterior shutters are not storm rated and are meant to function as decorative accents only.

THE SAVANNAH COLLECTION

Simple, classic designs that bring a clean and timeless look to your home.
